Percentage: 93.60% | 2018  
(Equivalent to GCSEs or lower secondary education)

## ACADEMIC PROJECTS

### ❖ Social Sphere

A social networking platform enabling real-time messaging, audio/video calls, and media sharing.

- Built with React (Next.js), Node.js, Express, and MongoDB for a scalable and responsive full-stack architecture.
- Implemented real-time communication using Socket.IO and WebRTC for chat and calls.
- Integrated secure media storage via AWS S3 for handling photo and video uploads.

- Implemented real-time notifications for user activity to improve interaction.
- Developed features like post creation, liking, commenting, and friend requests to enhance user engagement.

#### ❖ **Pet shop**

A simple pet shop application showcasing basic functionalities.

- Developed using React for the frontend and Firebase for backend services and authentication.
- Enabled features like product listing, user authentication, and basic CRUD operations.
